The Republican Congressmen are con ing to Washington in considerable nun pers and the President has received them all and has had several conference with the members of the Ways and Means Committee. General Grosvenor of Ohio, believes there is no desire he part of the country for tariff revision He says: "The result shows there will be no more tariff revision by Congress than there will be a revision of the Ten Comgainst any revision of the tariff but gainst any reciprocity treaties that will affect the principle of protection." Hon. Serano E. Payne, Chairman of the Ways and Means Committee, is confident that no change is needed and that to open the subject would have a disquieting effect on business that would more than offset any good that might be accomplished.

Senator Hanna, who came to Washington on Friday and called at the White House for the first time since Mr. Roose elt's succession to the Presidency, ex presses the belief that there is no occa on to revise the present law and the people would seriously disapprove such action on the part of Congress. Senator Platt concurs with Senator Hanna and practical and tariff tinkering not to be thought of." In view of these decided pinions on the part of the leaders of his party it is not believed that the President will make any recommendations to the contrary. Whatever his private views may have been, Mr. Room too level-headed to consider himself in as good a position to judge of the wishes of the people as are their representatives

The President has, by his appointment of Robert G. Houston as Collector of the his position towards the J. Edward Addicks faction in Delaware. It will be re-membered that Mr. Addicks has been the entation of his State for a number of ent anti-Addicks leader, is Chair man of the Sussex County Republican Committee, and has the warm support of Representative Ball, the only Congress ional representative of Delaware at the resent time. The President recently appointed a Postmaster at Wilmington was unfriendly to Mr. Addicks and with this new appointment it is predicted that Addicks' power will soon be so weakened that Delaware will be able to send her full quota to Congress.

It has been given out that the Pres lent has decided not to re-appoint Gov ernor Jenkins, of Oklahoma, who re-ceived his commission from President McKinley last summer. There have been charges made against Jenkins at the White House to the effect that his relaons with certain contractors, who have en engaged in the construction of some public works, were not all that could be With characteristic fairness Mr. Roosevelt gave Mr. Jenkins an op-portunity to defend himself against his sers but, as he has heard nothing om the Governor, he will probably ap point his successor at an early date. I am told at the White House that the President has no intention of appointing Zach Mulhall, but it is rumored that the cointment will go to a former Rough

The large number of Federal appoint ents to be made before the reassemb ting of Congress is occupying a great deal of the President's time, as he is most areful and painstaking in his selection The judgeship in Virginia is attracting a good deal of attention at the present time and it is thought probable that Colonel Hoge, who made such an excellent showing in the race for the governorship, may be selected.

and it is thought probable that Colonel Hoge, who made such an excellent showing in the race for the governorship, may be selected.

One of the objects that brought Senator Hanna to Washington this week was his well known devotion to the momory of William McKinley. Tue Senator is intensely intergated in the progress of the William McKinley Memorial Association and believes that the Memorial Arch Association should unite with the former and the combined forces of the two be directed to the erection of a suitable monument in Canton, and that accomplished, take up the erection of the memorial arch in the national capital. He considers that the plans of the Arch Association are upon too large a scale. He has had several concrences with the leaders of that association but has not received much encouragement on his proposition for an amalgamation.

due to the celebration of the thousandth of a statue at his birthplace, has resulted evolution of the sportsman. One may see, by reviewing the customs and conditions of Alfred's time, how it was that hunting came to be regarded as the noblest of all amusements. It was abso lutely necessary to the safety and welfare of the people that the wolves, bears wild boars, and other dangerous animals which then roamed over England, should be exterminated; and, of course, the King and his knights, as the bravest and best armed of the fighting population, were setting a good example and doing good service in their hunting These conditions continued for some hundreds of years and the nobility of the sport of hunting became firmly established and hedged about with many traditions as to the proper method of killing the game. The persistence of traditions in England is proverbial; and these additions is fronted with a pavilion hence, after the whole country became of the same general style as the central as safe as a barnyard, people continued

GENERAL WILSON AND FREE TRADE General James H. Wilson, of Wilmington, delivered the principal address at the New England Free Trade League meeting in Boston last Saturday night. The fact that such an ardent Republican as General Wilson our desire to judge the case in should be a speaker before a Free Trade Audience was in itself an dence in Mr. Ward all along, and unusual event. His prominence before the country during the Spanish American war and later in China made the occasion such an important one that his words retribution is at hand. "The were closely watched. This brought distress to the sugar growers of Cuba and the rest of the West Indies, and the two revolutions in the former islands about completed the destruction of the industry. As regards tobacco, the great improvement in farming and other machinery in this country and the slowness of the Spanish American to adopt them. has led to practically the same result. The people of Cuba and Porto Rico are now unable to raise either sugar or tobacco now profitably. Their best and natural market is the United States.

### SALVATION ARMY AT DOVER

Adjutant J. Kemp of the Salvation Army, with Lieutenant Heneks and the three Jones Sisters, arrived at Dover on Thursday evening and held their first ervice at Wesley M. E. Church Tuesday night. They were greeted by a large au-dience and entered upon their work in good earnest. The Adjutant took up quite a little time in explaining the objects and methods of the Army. The music is a very attractive feature of every service. They all play on different kinks of musical instruments and the singing of the Jones Sisters is very fine. Adjutant Kemp is an interesting and impressive talker and the whole company are refined people. Thus far they are making a favorable impression and the indications are that they will be a great t essing to the community.

WOMEN IN SESSION

The annual meeting of the Women's Sarah E. Metz, was devised the real and Auxiliary of the Doicese of Delaware was held at St. Anne's Church, this town, Thursday with one hundred and fifty

of St. Anne's Church, and a committee of women, and escorted to the church. Previous to the sessions of the auxiliary there was a celebration of the Holy Communion, with Bishop Coleman as cele-brant, assisted by Bishop Graves, of Shanghai, China; the Rev. H. M. Bart-lett, of Washington State; the Rev. G. V. Gilbreath, of Smyrna, and the Rev. H. Ashton Henry, of Wilmington. Other clergymen present were the Revs. Hubert W. Wells, and C. B, Dubell, of Wilming-

ton, and C. D. Weeden, of Clayton. After the Communion service the Rev. W. J. Wilkie spoke a few words of welcome, and Bishop Coleman referred briefly to the part the Women's Auxiliary and other women's organizations took in the work of the recent general convenion in San Francisco, and congratula the branch on the enlarged work of the past year. He also alluded to the fact that the offering of the branch was much in excess of those of other dioceses.

Bishop Graves, of China, followed Bis nop Coleman. He spoke of the excellen work being done by S. Harrington Lit work being one of the tiell, a former Delawarean, and paid a high compliment to him. Notwithstanding the recent outbreaks, Bishop Graves considered the outlook hopeful in China. He said the outbreaks were not due to the common people, who are kind and often have saved the missionaries from persecution and death, but to the rulers

Bishop Graves alluded to the school that had been founded in China for boy and girls, and which are so successful that

money is needed to enlarge them. He spoke gratefully of the help received from Delaware, and asked a continuance.

The Rev. H. M. Bartlett, formerly the diocese, spoke in an interesting way of the work of the church in Washing

ton State. He predicted that it would be one of the greatest states in the Union.

THE secret is in always keeping up quality. No matter how cheaply the goods are sold you'll notice that our No. 4 is not No. 3 marked up. Nor do goods marked 10 yards piece measure only 9 yards. Nor is our 50 yards Spool Silk only 35 yards. If not full length we tell you. We guarantee all qualities, sizes and yardage. All goods exchangeable, the best possible guarantee of quality. Everything wanted for work or sewing room at prices often 50 to 100 per cent. cheaper than other stores. Its our SPOT CASH BUYING and SPOT CASH SELLING that makes this store the snap leader.

# Winter Clothes

You're after warmth, wear and good looks.

They are not in cotton-mixed clothes. Cotton doesn't look well after the first week; it is not warm; it may wear well enough, but it almost never holds its color.

Besides, the kind of sewing and tailoring that go with cotton keeps wives and mothers busy mending when they ought to be resting or reading.

You can get a good-wearing Overcoat of all wool here for \$7.50-goodwearing Suit for \$8.50. With proper care the suit ought to last two winters, and the overcoat four or five winters.

You pay less for cotton-mixed suits by the suit, but you pay more by the

Finer Suits and Overcoats, \$12, \$15, \$18, \$20. The top notch of ready to wear clothing. We have stuck to wool for forty
